COMPANY

Fondata sulla passione per il proprio lavoro nel 1995, AXA è una autentica realtà familiare incentrata sui valori dell'etica e del tipico saper fare italiano, sempre alla ricerca di soluzioni che rispondano alle esigenze dell'abitare contemporaneo, che ha trasformato la stanza da bagno da spazio di servizio a vero e proprio luogo da vivere. Dal pensiero nasce l'idea, sempre carica di originalità e tradizione, che si materializza in oggetto e diviene design quando supera i limiti temporali per rivelarsi in un'eleganza senza tempo. Mani esperte e consolidate tecnologie uniscono terra, acqua, aria e fuoco in un processo complesso che, con sensibilità per la forma e desiderio di innovazione, si appaga pienamente solo con la creazione di prodotti unici.

Set up by passion for its work in 1995, AXA is an authentic family business focused on values of ethics and typical Italian artisanship, always looking for solutions able to meet the needs of contemporary living, which has transformed the bathroom from a service space to an authentic place to live. From a thought comes the idea, invariably full of originality and tradition, which appears into an object and becomes design when it exceeds the time limits to reveal itself with timeless elegance. Expert hands and consolidated technologies combine soil, water, air and fire in a complex process that, with sensitivity for shape and desire for innovation, is fully satisfied only with the creation of unique products.

SUSTAINABILITY

La sostenibilità, peraltro già sottesa all'intrinseca essenza della ceramica, che proviene da materie prime naturali (argille, feldspati, caolini) trasformate in prodotti duraturi e riciclabili, accompagna AXA come sfida permanente nel tentativo di ridurre il più possibile l'impatto sul pianeta, sia nel creare i manufatti che nell'indirizzare gli utenti ad un acquisto sostenibile. Ne seguono come linee guida la necessità di minimizzare l'uso di energia e massimizzare il riciclo delle acque di produzione, di ricercare un design senza tempo che garantisca longevità al prodotto, e di sviluppare tecnologie orientate al risparmio idrico; principi che hanno portato alla realizzazione di un sistema circolare di recupero degli scarti e dell'acqua utilizzata all'interno del processo produttivo, all'introduzione di tecnologie di scarico avanzato ad alto risparmio idrico, alla rimozione della brida per limitare il consumo di detersivi (facilitando la pulizia), e che continuano a stimolare le attività di ricerca e sviluppo nella consapevolezza che la natura sia il nostro unico futuro.

Sustainability, that is already behind the intrinsic essence of ceramics, coming from natural raw materials (clays, feldspar, kaolins) changed into durable and recyclable products, accompanies AXA as a permanent challenge in an attempt to reduce as much as possible the impact on the planet, either by creating the items or by directing users to a sustainable purchase.

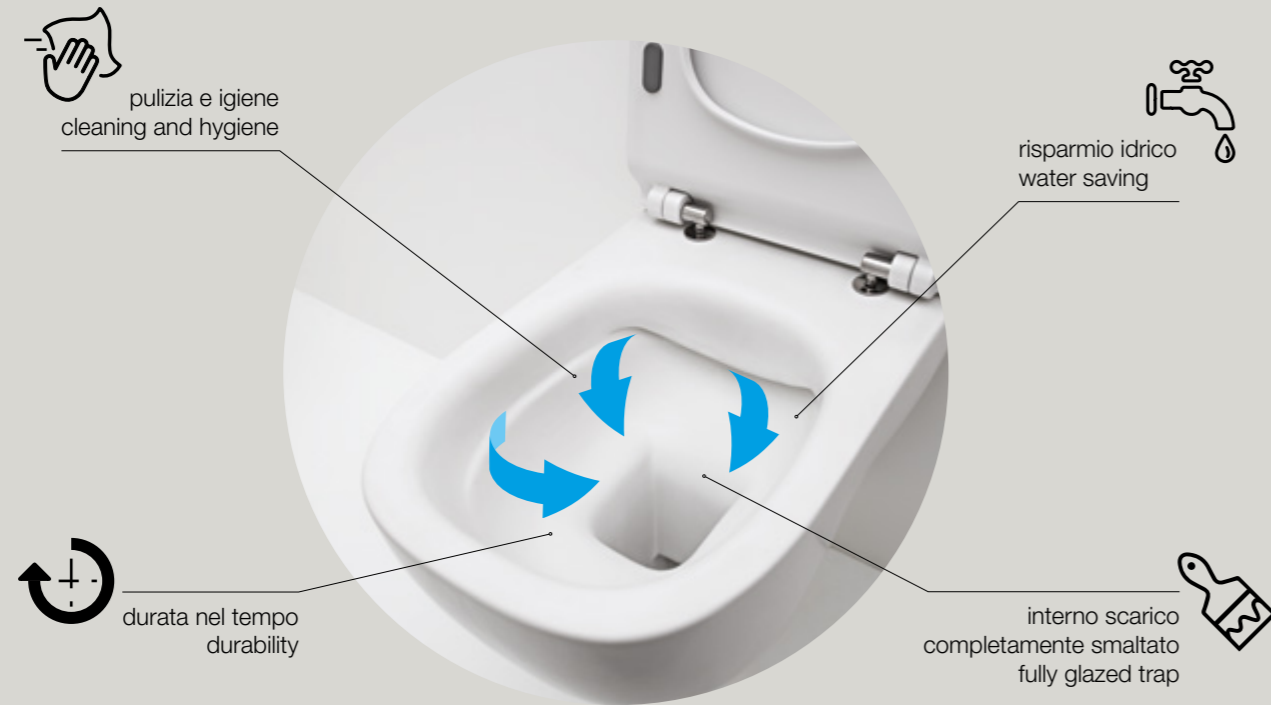

That leads to guidelines like a need to minimize the use of energy and maximize the recycling of production water, to seek a timeless design that guarantees product longevity, and to develop technologies aimed at saving water; those principles have brought to the creation of a circular system for the recovery of waste and water, to the introduction of advanced water-saving drainage technologies, to the removal of the rim to limit the consumption of detergents (easy cleaning), and they continue to stimulate research and development activities in the awareness that nature is our only future.

NORIM®

Il sistema NORIM®, senza brida, garantisce la distribuzione uniforme dell'acqua sull'intera superficie del wc senza spruzzi, facilitando la pulizia, riducendo il consumo di detersivi e assicurando un sanitario performante nel tempo.

NORIM® technology, rimless, enable an uniform water distribution throughout the entire wc surface without any splashing, it makes the cleaning easy, reduces the consumption of detergents and grants a good performance over the time.

DESIGN

Il design è lo strumento con il quale AXA opera per svolgere la missione di offrire prodotti che migliorino la vita quotidiana delle persone, attraverso la ricerca del migliore equilibrio tra comfort, funzionalità e valore estetico.

Design as a tool to carry out the mission of offering products able to improve the everyday life, through a deep research for the best balance between comfort, functionality and aesthetic.

Romano Adolini

Alessandro Paoletti

Giancarlo Angelelli

Massimiliano Cicconi

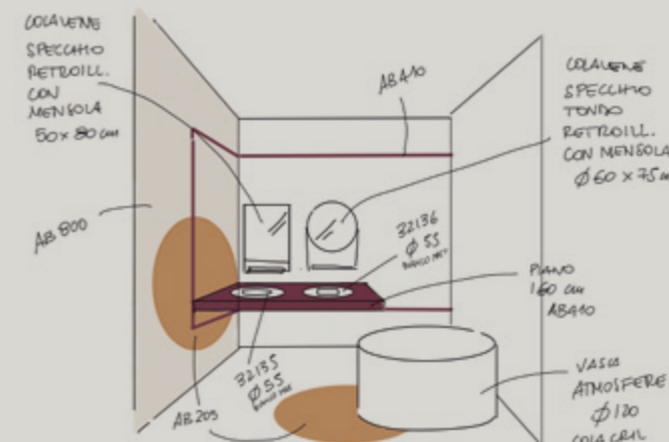

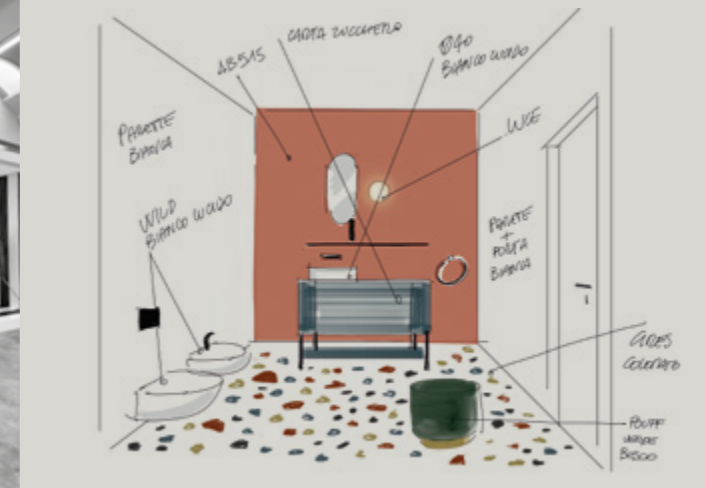

PROJECT

La passione per l'innovazione e per il lavoro di squadra sono i valori che hanno guidato la stesura di questo catalogo. Insieme al team di comunicazione che ci supporta abbiamo scelto, infatti, di dare una rappresentazione concreta e originale all'ispirazione, alla qualità, alla funzionalità dei prodotti AXA. La scelta stilistica dei box, con ambientazioni così diverse, risponde alla doppia esigenza di mostrare il prodotto in contesti differenti e di suggerire presentazioni che possono essere facilmente riprodotte negli showroom dei nostri rivenditori. In sintesi, un catalogo nato al servizio non del prodotto, ma di chi, con quel prodotto, lavora ogni giorno.

Passion for innovation and teamwork are the values that inspired this catalog. We tried, together with our communication team, to give a concrete and original representation to innovation, quality and functionality of AXA products. The stylistic choice of the boxes, with such different settings, replies to the double need of showing the items in different environments and suggesting displays easily replicable in the showrooms. In brief a catalog born to be more at the service of those who appreciate and work every day with the product.

Ceramic design Giancarlo Angelelli
Complements design Alessandro Paoletti

Cerchi concentrici o sottratti al quadrato, la leggerezza della ceramica che si contrappone alla solidità della materia, strutture metalliche che sostengono l'intero sistema.

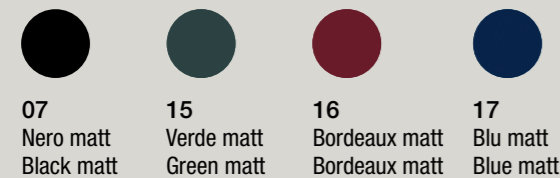

Concentric circles or subtracted from the square, lightness of ceramic opposed to the solidity of the matter, metal structures that support the entire system.

Eva

Design Alessandro Paoletti

Elegante. Vanitosa. Attraente.

Tre parole per definire la personalità della collezione EVA.

Il design essenziale e contemporaneo ben si affianca all'innovazione progettuale, per proporre la più avanzata delle scelte estetiche e funzionali, in versione sospesa e back to wall.

Con EVA, l'ambiente bagno trova una nuova, preziosa protagonista.

Elegant. Vain. Attractive.

Three words to define EVA collection's personality. Essential and modern design follows the design innovation, to propose the most contemporary aesthetic and functional choice, available wall hung and back to wall.

With EVA the bathroom finds a new, precious hero.

ALTEZZA +2 CM_HEIGHT +2 CM

Una piccola differenza di pochi centimetri permette un grande salto nell'ergonomia e nella comodità.

A slight difference of just few cm allows a jump in ergonomics and comfort.

PROFONDITÀ 55 CM_DEPTH 55 CM

La profondità corretta per il maggiore comfort, che è un requisito fondamentale nel bagno moderno.

A right depth for ideal comfort, which is a fundamental feature of the modern bathroom.

SCARICO TRASLATO_SHIFTED OUTLET

Nessun tubo a vista e installazione facilitata: la soluzione ideale in caso di ristrutturazione di bagni esistenti.

No visible hose and easy installation: the perfect solution to renovate existing bathrooms.

Eva A-sound

A-NEW SOUND OF WATER

A-Sound è una nuova esperienza di comfort. Silenziosità, igiene e attenzione al risparmio idrico sono racchiusi nel nuovo sistema di scarico silenzioso sviluppato da AXA Ceramica. Si tratta di un vortice d'acqua potente e preciso, accuratamente direzionato. Diventa così possibile ottenere una sensibile riduzione della rumorosità, una massima igiene e un minor impiego di acqua ad ogni scarico. A-Sound è il risultato di un lungo percorso di ricerca che ci porta, giorno dopo giorno, a rendere i nostri prodotti migliori per le persone e per l'ambiente.

A-Sound is a new experience of comfort. Silence, hygiene and water saving are enclosed in the new silent drain system developed by AXA Ceramica. It consists in a powerful and precise water vortex, precisely directed. It thus becomes possible to obtain a significant reduction of the flushing noise, maximum hygiene and less use of water for each flush. A-Sound is the outcome of a long research process that leads us, day after day, to make our products better for people and for the environment.

Set 3

Radici

design Giancarlo Angelelli

La solidità della ceramica viene valorizzata da linee e geometrie morbide. L'alzata posteriore richiama il passato e guarda al futuro.

Solidity of ceramic is enhanced by lines and soft geometries. The splashback recalls the past and looks to the future.

Decus

Set 1

Set 2

Set 3

Decus

Design Giancarlo Angelelli

Decus = Decorazione.

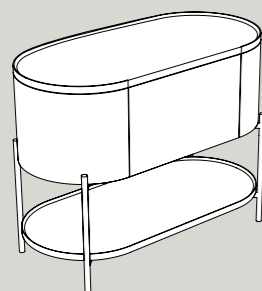

Una fascia che corre lungo tutto il bordo del lavabo ne sottolinea lo spessore sottile e il bacino morbido e profondo.

Decus = Decoration.

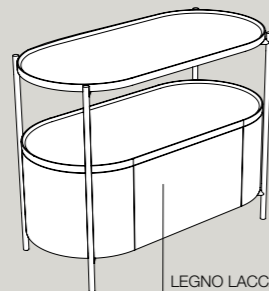

A band running along the edge of the sink emphasizes its thin thickness and the soft and deep bowl.

DP

Design Giancarlo Angelelli

L'originarietà e non solo l'originalità.
Un nome, Divina Proporzione, acronimo DP, che rappresenta un omaggio all'armonia proporzionale e al sapere progettuale.

Origin and not just originality.
A name, Divine Proportion, acronym DP, which represents a tribute to proportional harmony and design knowledge.

Design Massimiliano Cicconi

Il passato si impone prepotentemente al nostro presente, senza perdere nulla del suo fascino e con la capacità intatta di inserirsi negli ambienti più contemporanei.

The past imposes itself strongly on our present, without losing its glamour and ability of fitting into the most contemporary environments.

Piatto doccia in marmo resina con pendenza integrata a ridotto spessore. Il buon drenaggio in una doccia è fondamentale per prevenire problemi di acqua stagnante mentre la doccia è in uso, riducendo così i livelli di umidità nella doccia quando la fonte di acqua è spenta. Lo spessore minimo di 3 cm è ideale per ambienti bagno moderni ed essenziali. Dal design moderno e funzionale, questo nuovo piatto doccia è stato progettato con il nuovo WATER OUTFLOW SYSTEM, in grado di semplificare lo scorrimento dell'acqua per evitare fuoriuscite accidentali. Lo scarico dell'acqua è posizionato lungo tutta la lunghezza del lato corto.

H30 is a marble-resin shower tray with integrated slope and reduced thickness. A shower must be perfectly drained to prevent stagnant water problems while the shower is in use, so that humidity levels in the shower are reduced when the water is turned off. This new shower tray, with its modern and functional design, has been created with the new WATER OUTFLOW SYSTEM, able to simplify the water drainage and avoid accidental leaks. The water drain is placed along the entire length of the short side.

Piatto doccia in marmo resina dal design minimale che conferisce al bagno uno stile moderno, grazie alla superficie piana ed uniforme. Un piatto doccia che soddisfa i più alti standard di qualità e resistenza. Il piatto doccia H28 è dotato di piletta di scarico in acciaio.

H28 is a minimalist marble-resin shower tray that gives the bathroom a modern style thanks to its flat and uniform surface. A shower tray that meets the highest standards of quality and resistance. H28 is a marble-resin shower tray complete with trap and stainless steel drain cover.
