C'era una volta...

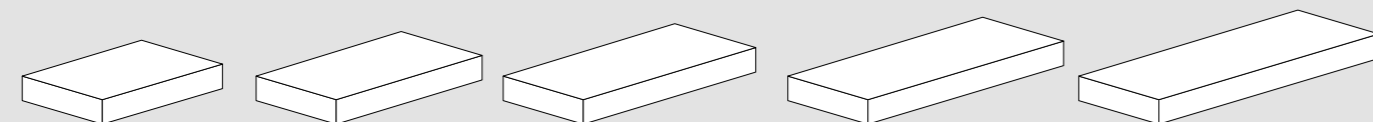

un pezzo di ceramica che all'atto di assumere la sua definitiva forma ebbe un desiderio: non voleva essere un prodotto pensato dall'uomo, ma un oggetto creato dalla natura. Quale, pensò allora... ma certo: una conchiglia!

Once upon a time...

There was a piece of ceramic that, when close of assuming its final shape, had the desire not to be a product thought by man but an object created by nature. Which object, he thought then... but sure a shell!

design Giancarlo Angelelli

La solidità della ceramica viene valorizzata da linee e geometrie morbide. L'alzata posteriore richiama il passato e guarda al futuro.

Solidity of ceramic is enhanced by lines and soft geometries. The splashback recalls the past and looks to the future.

Decus

Design Giancarlo Angelelli

Decus = Decorazione.

Una fascia che corre lungo tutto il bordo del lavabo ne sottolinea lo spessore sottile e il bacino morbido e profondo.

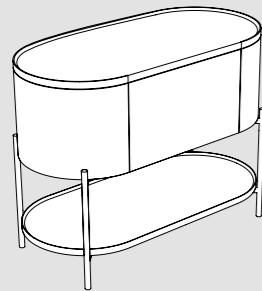

Decus = Decoration.

A band running along the edge of the sink emphasizes its thin thickness and the soft and deep bowl.

Piatto doccia in marmo resina con pendenza integrata a ridotto spessore. Il buon drenaggio in una doccia è fondamentale per prevenire problemi di acqua stagnante mentre la doccia è in uso, riducendo così i livelli di umidità nella doccia quando la fonte di acqua è spenta. Lo spessore minimo di 3 cm è ideale per ambienti bagno moderni ed essenziali. Dal design moderno e funzionale, questo nuovo piatto doccia è stato progettato con il nuovo WATER OUTFLOW SYSTEM, in grado di semplificare lo scorrimento dell'acqua per evitare fuoriuscite accidentali. Lo scarico dell'acqua è posizionato lungo tutta la lunghezza del lato corto.

H30 is a marble-resin shower tray with integrated slope and reduced thickness. A shower must be perfectly drained to prevent stagnant water problems while the shower is in use, so that humidity levels in the shower are reduced when the water is turned off. This new shower tray, with its modern and functional design, has been created with the new WATER OUTFLOW SYSTEM, able to simplify the water drainage and avoid accidental leaks. The water drain is placed along the entire length of the short side.
