# Mate+

Design Studio Adolini

La collezione Mate si amplia con un nuovo lavabo: il lavabo tondo con diametro 40 cm è ora ancora più funzionale grazie al piano integrato per la rubinetteria, che ne facilita installazione e utilizzo. La piletta, piatta ed integrata, esalta il carattere distintivo del suo design essenziale.

A new washbasin enriches the Mate gamma: the round basin, diameter 40 cm, is now even more functional thanks to the integrated tap deck, which simplifies both installation and use. The flat, built-in ceramic waste enhances the distinctive character of its clean, essential design.

## Al taglio...

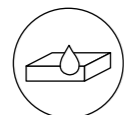

Una delle caratteristiche della marmo resina è la sua alta versatilità. I piatti doccia realizzati con questo materiale sono infatti utilizzabili anche per installazioni in fuori squadra o qualora fosse presente una colonna architettonica in quanto il taglio con disco apposito risulta di facile attuazione. Cut to size... One of the characteristics of marble resin is its high versatility. The shower trays made of this material can actually be used also for out-of-line-walls or in the presence of an architectural column, as the cut made with the special disc is easy to do.
